

WORLD OF SPIRIT

Intensive Trance Week

with **Judith Seaman (UK)** - Translation: **Lillian Steiner-Iten**

Judith is a leading teacher of trance mediumship. She is also an author and well known physical medium. She has taught and worked at the world renowned Arthur Findlay College for many years. She works internationally and is one of the most experienced physical mediums of our time.

This course is directed to those who wish to spend a week working intensively with trance energies and who seriously wish to move their trance mediumship forward. This week is not a beginners class, but for those who have some experience with trance mediumship and who are accustomed to sitting for longer periods of time for trance development.

During this week we will be looking at different aspects of trance mediumship, ranging from Philosophy, Trance Healing and Inspiration and how to sit for Trance. Judith will be supporting each student individually in order to help you to strengthen and deepen your link to the spirit world.

The course will hold a maximum of 15 people.
